MANAGING DIRECTOR
Bcom (Accounting & Finance)
MBA (Professional Accountancy)

Message from the Director

After graduating with an MBA from the US in 2011, I felt a heavy burden over me seeing the few prospective students who could afford to study in North American universities. Studying in most schools in North America is quite an expensive affair compared to many other places in the world. As a result, figuring out how to raise the expected amounts to cover the cost of attendance in these schools can be the most daunting challenge, especially for those without concrete financial muscles. Additionally, what amused me most was the fact that many of those looking for study opportunities in North America didn't know which schools and programs to consider, how to get funding, and how to navigate through the visa processes.

It's because of these challenges that I founded the International Scholars Program to primarily help international students like you. Our goal in this program is to ensure that we provide optimal guidance through the many processes inclined to ultimately attending a North American university and pursuing your master's and offering career guidance and assistance after graduation.

I have received various accolades for my role in founding The International Scholars Program and impacting people's lives.

In **2023**, I was recognized by **African Warrior Magazine** as one of the top 50 Kenyans living in the US.

In **2021**, I received **The Global Impact Award** by the **International Council of Educational Professionals (ICEP)**.

In **2018**, I was recognized by **African Warrior Magazine** as one of the **40 most Inspiring Kenyan Men Living in USA**.

ASSOC. PROF. JANICE D. BUSINGYE
PARTNER-DIRECTOR

Message from the
Partner

Having paid fees for my graduate studies in South Africa, while living and working in Uganda, and knowing firsthand the challenges associated with securing financing graduate education and having worked with students in the higher education space for over 25 years, my heart bleeds for students who have great academic potential but cannot afford to further their studies.

As a career educator, I have witnessed students drop out of school, because of financial constraints. At the graduate level, the situation is even worse because of the various responsibilities that the student must contend with in addition to pursuing their studies. Undoubtedly, the greatest arsenal to help resolve such challenges is consolidating the relevant support by bringing together all stakeholders in the education sector to help those navigating through murky waters in pursuit of education. VeriAlchem Scholars Enclave is premised on being an interlink that brings all players on board in supporting students in education.

VeriAlchem Scholars Enclave is privileged to work with the International Scholars Program (ISP) to enable brilliant Ugandans, who yearn for growth and opportunities to pursue their studies in North America, to make their dreams a reality.

I couldn't hide my excitement when I heard about the program, because from my experience, I have seen the impact of education on the aspirations and dreams of not just individuals but societies.

OVERVIEW

Every year, North America absorbs over 1 million international students from every corner of the world who migrate to further their studies. On the other hand, thousands of brilliant students who wish to seek world-class education in North America fail to do so, simply because education in North America is too expensive for them and most have no access to any kind of funding that would facilitate such an endeavor.

The International Scholars Program seeks to help brilliant students from across the globe to achieve that dream of studying in North America regardless of their financial background. We accommodate ambitious, and incredibly talented students who are willing to take a leap of faith in joining the STEM space in order to make their North American graduate dream a reality. One does not need to have a STEM bachelor's degree to pursue STEM designated master's programs.

In essence, The International Scholars Program enables students to navigate through two key challenges that most students face in their quest to study in North America, namely:

- **Acquiring funding**
- **Career support**

Acquiring Funding

In most countries, save for a few, there are no banks that offer financing for those wishing to study abroad. Through our partnership with major North American-based lenders, we ensure that students under the umbrella of our program get financing to make their study abroad dream in North America a reality.

In addition, the cost of the process of relocating such as visa fees, air tickets, medicals, insurance etc. can also be quite expensive and therefore through this program, we are able to reduce such a financial burden for our members.

Also, we understand that it's quite challenging to find financial aid, and in this program, we negotiate for tuition scholarships/waivers with some of our partner universities and assist our beneficiaries in applying for graduate/teaching assistantships with the schools that we work with. Such financial aid substantially helps cover tuition costs and living expenses for our beneficiaries.

Career Support

North America is literally the Mecca of high-quality education. With a master's degree from a North American university, you create a competitive profile ripe for the corporate opportunities anywhere across the globe. Besides, blending one's master's program with some of the STEM job skills training that we offer is usually the hallmark of career greatness. These skills are the most sought-after in the contemporary corporate arena.

By packaging you well along those two important realms, we help create your value and make you an ideal candidate for any opportunity for career progression after school. We consistently provide guidance and mentorship at each step of your career ladder to enhance personal growth and success.

HOW THE PROGRAM WORKS

The International Scholars Program is divided into two options based on the student's academic and financial ability: **REGULAR** and **PRIME**. Students in the **Regular Option** are entitled to **full relocation** expenses funding in addition to **full tuition** and **living expenses** funding while those in **Prime Option** are only entitled to **full tuition** and **living expenses** funding. Funding for tuition and living expenses is acquired from our lending partners. Specific differences between the two options are outlined in the succeeding sections in this handbook.

QUALIFICATION REQUIREMENTS

****Note**We DO NOT accept work experience as a substitute for academic qualifications.**

Regular Option

To qualify for the regular option, one must have **at least a B mean grade** equivalent in the **High School Diploma** and at least a **2.8 GPA** in an undergraduate degree in any major. **GMAT/GRE is NOT REQUIRED.**

Prime Option

No minimum grade in **High School Diploma** but one has to have at least a **2.8 GPA** in an undergraduate degree in any major. Moreover, under this option, one has to take care of part of their relocation expenses as indicated in subsequent parts of this handbook.

If you qualify and wish to join either option, please follow the steps below.

ENROLMENT STEPS

STEP 1: Joining our study abroad community on telegram

If you are a qualified candidate interested in the program, please join our telegram group of prospective international scholars students using this QR code. <https://t.me/+RJIOjyiPAsc2MGRh>

This telegram group will help you interact with program administrators and other prospective students where you can ask any questions you may have about the program.

STEP 2: Apply to The Program

Visit www.internationalscholarsprogram.com and submit your application. Please note there is a non-refundable application fee of **\$20** that is paid at the time of submitting the application. You will receive a decision within 24-48 hours.

STEP 3: Making Relevant Program Contributions

As part of your acceptance into the program, you will be sent a link via email to make payment for your contribution depending on your chosen option:

- Qualified **REGULAR** students **MUST** pay **USD 1100** as total contribution fees. All payments are made through our online system in two installments of **USD 600** and **USD 500**. A link to make payments will be sent to you once you have been accepted into the program. Please refer to the **Refund Policy** in later pages on financial implications of premature program withdrawal.
- Qualified **PRIME** students **MUST** pay **USD 1600** as total contribution fees. All payments are made through our online system in two installments, **USD 1100** and **USD 500**. A link to make payments will be sent to you once you have been accepted into the program. Please refer to the **Refund Policy** in later pages on financial implications of premature program withdrawal.

STEP 4: School Admission Advisory

Once you join the program, you will engage our career advisory team for guidance on the schools and programs you can choose based on your academic background and future career goals. We apply to a maximum of three universities that best fit your profile and needs.

STEP 5: Funding Advisory

Once accepted to a school, our funding team will guide you through the process of applying for tuition and living expenses funding through our lending partners and will also advise you on how to engage our partner universities on applying for any graduate assistantship awards.

The unsecured student loans and graduate assistantship (if any) will enable you to pay for your graduate studies in North America.

STEP 6: Visa Application and training

Once you get approved for funding, our team will guide you on how to request your I-20 or Proof of Acceptance (POA) from the school to seek the student visa.

Upon processing your I-20 or POA, we will guide you through the student visa application process through our intensive visa guidance program to equip you adequately on the expectations of the student visa interview.

STEP 7: Travel & Logistics Advisory

Once your visa is approved, we will start the process of relocating you to North America. At the time of relocation, the program will charge as unsecured loan, all the expenses you will have incurred through the process. You will start repaying 6 months after relocation for a period of 2 years. Additionally, your student loans covering tuition & living expenses will be directly disbursed to you by our lending partners once you report to school. Repayment for the tuition & living expenses loans will begin 6 months after graduation for a period of 6-10 years depending on the lender.

STEP 9: Career Support

Once you relocate and join university, we offer you career support through our STEM job skills training as you pursue your master's degree. These skill sets are geared towards equipping you with the right competencies after graduation and make your profile impressive and ripe for many amazing opportunities in the corporate world not just in North America but everywhere across the world.

Withdrawal, Late Payment & Refund Policy

- To enroll into this program, students are required to make their 2 instalments contributions using our online system and must complete their payments within 30 days of joining the program.
- Once an application to join the program is approved, the applicant must enroll by making the relevant program contribution within three (3) months.
- If the applicant fails to enroll within this period, the application will expire.
- To be considered for admission again, the individual must submit a new application.
- If a student fails to pay any required installment within one (1) month of the due date, a late payment penalty of \$30 will be applied to their account.
- If a student fails to clear all their installment payments within six (6) months after enrollment, they will be automatically withdrawn from the program.
- To rejoin the program in the future, the individual must submit a new application.
- The program will full cover relocation expenses to the tune of up to \$ **5000** for qualified Regular option students. (Please see page 10)
- The program will **ONLY** cover part of the relocation expenses for prime option students. (Please see page 10)
- The interest charged on the relocation expenses loan will be 1% per month (12% p.a) **flat rate**.
- The interest charges on the tuition and living expenses loan will depend on the originating lender. Interest varies between 9%-15%.
- The regular option students will start repaying the relocation loan 6 months after the disbursement. The loan repayment period is 24 months.
- The students will start repaying the tuition and living expenses loan, 6 months after graduation for 6-10 years depending on the lender.
- As a **REGULAR option** student, the non-refundable total contribution amount is **\$600 (Initial program consultation plus registration fees)**. The remaining **\$500** is **ONLY** refundable if you withdraw within **6 months** of enrolling into the program.

- As a **PRIME option** student, the non-refundable total contribution amount is **\$1100 (Initial program consultation plus registration fees)**. The remaining **\$500** is **ONLY** refundable if you withdraw **within 6** months of enrolling into the program.

NOTE: Refunds are processed within 4 months after a withdrawal request is submitted through our system and shall be subject to deduction of any other expenses incurred apart from initial program consultation fees plus registration fees. Refunds will be paid out to your card that you used to make payments to the program. Card refunds are subject to a 5% refund processing fee.

PROGRAM CONTRIBUTIONS

REGULAR OPTION CONTRIBUTION & FUNDING AVAILABLE

CONTRIBUTION AMOUNT	1 ST INSTALMENT	2 ND INSTALLMENT IN 30 DAYS	RELOCATION LOAN AMOUNT	TUITION & LIVING EXPENSES LOAN
\$1,100	\$600	\$500	Up to \$5,000	Up to \$100,000

The relocation loan caters for relocation expenses, such as School Applications, Air ticket, Visa fees, GMAT/GRE fees, SEVIS Fees, Immunizations, initial Rent and Lease Deposits etc, as per the relocation budget in subsequent pages of this handbook.

PRIME OPTION CONTRIBUTION & FUNDING AVAILABLE

CONTRIBUTION AMOUNT	1 ST INSTALMENT	2 ND INSTALLMENT IN 30 DAYS	RELOCATION LOAN AMOUNT	TUITION & LIVING EXPENSES LOAN
\$1,600	\$1100	\$500	\$N/A	up to \$100,000

In addition to the above contribution, prime option students take care of some of their relocation expenses. These expenses are not required to be pre-paid upfront but rather as incurred. These relocation expenses include Air ticket, first month rent & lease deposits, Health insurance, Medicals etc. The program will cover at most 3 school applications, Visa fees, and the SEVIS fee, if a student scores 70% and above in the visa preparation mock sessions.

FUNDING OPTIONS AVAILABLE

Our Programs are grouped in four funding TIERS. The options available are as follows:

TIER 1: FULLY FUNDED

Programs in this TIER receive **full funding**. These programs include:

- Computer Science
- Artificial Intelligence
- Data Science
- Mathematics
- Medicine/Nursing/Pharmacy

TIER 2: FULLY FUNDED

Programs in this TIER also receive **full funding**. These programs include:

- Engineering programs
- Data Analytics
- Business Analytics

TIER 3: PARTIAL/FULL FUNDED

Programs in this TIER get **partial or full funding** but may require students to provide proof of additional funding sources. These programs include:

- Accounting
- Economics
- Finance
- MBA
- Science

TIER 4: SECURED FINANCING

Students applying for programs in this TIER receive **full SECURED financing**. In the absence of secured financing, one may finance their studies through one of the following options:

1. **A personal or family** (from parents or siblings) **bank statement** showing enough money to cover the first year's tuition and living costs.
2. **Scholarship/Sponsorship**

SUMMARY OF UNIVERSITIES IN THE PROGRAM

We currently work with a select number of universities that offer STEM designated programs. STEM programs provide up to 3 years of optional practical training (OPT) after graduation, while non-STEM programs provide 1 year OPT.

All the beneficiaries of the program are enrolled at any of the following universities.

1. **Indiana University of Pennsylvania (IUP) – (OFFICIAL PARTNER)**
2. **Missouri State University – (OFFICIAL PARTNER)**
3. **University of Kentucky (UK)- (OFFICIAL PARTNER)**
4. **University of Louisville (UofL)- (OFFICIAL PARTNER)**
5. **University of Delaware (UD)- (OFFICIAL PARTNER)**
6. **Grand Valley State University- (OFFICIAL PARTNER)**
7. **Quinnipiac University- (OFFICIAL PARTNER)**
8. **William Jessup University- (OFFICIAL PARTNER)**
9. **Temple University- (OFFICIAL PARTNER)**
10. **Wilkes University – (OFFICIAL PARTNER)**
11. **University of South Dakota (USD) - (OFFICIAL PARTNER)**
12. **University of North Dakota (UND) - (OFFICIAL PARTNER)**
13. **California Baptist University (CBU) - (OFFICIAL PARTNER)**
14. **Illinois State University (ISU) - (OFFICIAL PARTNER)**
15. **Virginia Commonwealth University (VCU) - (OFFICIAL PARTNER)**
16. **Rutgers University-Camden - (OFFICIAL PARTNER)**
17. **University of Oklahoma (OU)- (OFFICIAL PARTNER)**
18. **Saint Louis University (SLU)- (OFFICIAL PARTNER)**
19. **University of Alabama at Birmingham (UAB)- (OFFICIAL PARTNER)**
20. **Oregon State University (OSU)- (OFFICIAL PARTNER)**
21. **University of South Florida (USF) - (OFFICIAL PARTNER)**
22. **Southern Illinois University (SIU)-Carbondale - (OFFICIAL PARTNER)**
23. **Rochester Institute of Technology (RIT) - (OFFICIAL PARTNER)**
24. **Lewis University - (OFFICIAL PARTNER)**
25. **Texas State University (TXST) - (OFFICIAL PARTNER)**
26. **Drew University - (OFFICIAL PARTNER)**
27. **University of Maine (UMaine)**
28. **Kansas State University**
29. **Northeastern University Toronto, Canada**
30. **Northeastern University Vancouver, Canada**

*We keep expanding and updating the list as we find more good partner schools. Please note it takes on average 6 months to prepare to migrate to North America as an international Student through our program.

Indiana University of Pennsylvania (IUP)

Founded: 1875

Total Students: 9,044

Postgraduate students: 1,865

Acceptance rate: 93%

Location: Indiana, Pennsylvania

Yearly Out of State Tuition Fees: \$18,854

Benefits for ISP students at this school

- Tuition fee scholarship of up to \$8000 for the full course
- Waiver of application fee of \$50
- Waiver of evaluation of transcripts of \$250
- Waiver of enrollment deposit \$150
- Priority for graduate assistantship awards to qualified candidates
- Priority in the processing of admission

To qualify for The International Scholars Program at IUP, you must be willing to study any of the following programs:

Program	Designation	Entrance Examination	Examples of Career Pathways	Funding Category
<u>MBA Supply Chain Management</u>	STEM	None	<ul style="list-style-type: none"> • Supply Chain Director • Senior Product Manager 	TIER 4
<u>MBA in Business Analytics</u>	STEM	None	<ul style="list-style-type: none"> • Business Analyst • Systems Analyst 	TIER 4

Grand Valley State University (GVSU)

Founded: 1960

Undergraduate Students: 21,112

Postgraduate Students: 2,912

Acceptance rate: 87.5%

Location: Allendale & Grand

Rapids, Michigan

Yearly Out of State Tuition Fees: \$14,030

Benefits for ISP students at this school

- **Priority in the processing of admission**
- **In-state tuition**

To qualify for The International Scholars Program at GVSU, you must be willing to study any of the following programs:

Program	Designation	Entrance Exam Required	Examples of Career Pathways	Funding Category
<u>MS Applied Statistics</u>	STEM	Optional	<ul style="list-style-type: none"> • Operations Research Analyst • Computer Scientist 	TIER 1
<u>MS Cyber Security</u>	STEM	Optional	<ul style="list-style-type: none"> • Cybersecurity Architect • Cybersecurity Engineer 	TIER 1
<u>MS Data Science & Analytics</u>	STEM	Optional	<ul style="list-style-type: none"> • Big Data Engineer • Data Architect 	TIER 1
<u>MS Health Informatics & Bioinformatics</u>	STEM	Optional	<ul style="list-style-type: none"> • Clinical Scientist • Data Scientist 	TIER 3
<u>MS Applied Computer Science</u>	STEM	Optional	<ul style="list-style-type: none"> • Application/Full-Stack Developer • IT Business Analyst 	TIER 1
<u>MS Engineering</u>	STEM	GMAT/GRE	<ul style="list-style-type: none"> • Systems Analyst • Electrical & Computer Engineer 	TIER 2
<u>MS Biostatistics</u>	STEM	Optional	<ul style="list-style-type: none"> • Statistical Analyst • Biotechnologist 	TIER 3
<u>MS Biology</u>	STEM	Optional	<ul style="list-style-type: none"> • Forensic Scientist • Microbiologist 	TIER 3

Quinnipiac University

Founded: 1929

Total Students: 10,000

Location: Hampden, Connecticut

Acceptance rate: 88%

Yearly Tuition Fees: \$46,780

Benefits for ISP students at this school

- Tuition fees scholarship to qualified students of up to \$5000
- Waiver of enrollment deposit fee of \$200
- Waiver of evaluation of transcripts of \$250
- Waiver of application fee of \$45
- Priority in the processing of admission

To qualify for The International Scholars Program at Quinnipiac University, you must be willing to study the following programs:

Program	Designation	Entrance Exam Required	Examples of Career Pathways	Funding Category
<u>MS Computer Science</u>	STEM	Optional	<ul style="list-style-type: none"> Computer Scientist System Analyst 	TIER 1
<u>MS Cyber Security</u>	STEM	Optional	<ul style="list-style-type: none"> Data Analyst Security Engineer 	TIER 1
<u>MS Molecular & Cell Biology</u>	STEM	Optional	<ul style="list-style-type: none"> Medical Scientist Biotechnologist 	TIER 4
<u>MS Applied AI & Business Analytics</u>	STEM	Optional	<ul style="list-style-type: none"> Business Systems Manager Business Intelligence Manager 	TIER 4

<u>MBA</u>	STEM	Optional	<ul style="list-style-type: none"> • Health Care Manager • Business Analyst 	TIER 4
<u>MS Informatics-Health Informatics</u>	STEM	Optional	<ul style="list-style-type: none"> • Health Informatics Analyst • Clinical Informatics Manager 	TIER 4
<u>MS Informatics-Legal Informatics</u>	STEM	Optional	<ul style="list-style-type: none"> • Legal Operations Specialist • Legal Analytics Director 	TIER 4
<u>MS Informatics-Data Informatics</u>	STEM	Optional	<ul style="list-style-type: none"> • Data Analyst • Data Engineer 	TIER 4
<u>MHS Biomedical Sciences</u>	STEM	Optional	<ul style="list-style-type: none"> • Biomedical Scientist • Clinical Scientist 	TIER 4

William Jessup University

Founded: 1939

Total Students: 2,009

Postgraduate Students: 600

Acceptance rate: 78%

**Location: Silicon Valley,
California**

Yearly Out of State Tuition Fees: \$30,550

Benefits for ISP students at this school

- Waiver of application fee of \$150
- Waiver of enrollment deposit of \$1000
- Waiver of evaluation of transcripts of \$250

To qualify for The International Scholars Program at William Jessup University, you must be willing to study the following programs:

Program	Designation	Entrance Exam Required	Examples of Career Pathways	Funding Category
<u>MS Computer Science</u>	STEM	Optional	<ul style="list-style-type: none"> • Systems Manager • Computer Networks Engineer 	TIER 1

Temple University

Founded: 1884

Total Students: 37,365

Postgraduate students: 10,058

Location: Philadelphia, Pennsylvania

Acceptance rate: 77%

Yearly Out of State Tuition Fees: \$28,418

Benefits for ISP students at this school

- Waiver of application fees of \$60 for the College of Engineering
- Waiver of evaluation of transcripts of \$250
- Priority in the processing of admission

To qualify for The International Scholars Program at Temple University, you must be willing to study the following programs:

Program	Designation	Entrance Exam Required	Examples of Career Pathways	Funding Category
<u>MS Computational Data Science</u>	STEM	Optional	<ul style="list-style-type: none"> Data Engineer Data Architect 	TIER 1
<u>MS Information Science & Technology</u>	STEM	Optional	<ul style="list-style-type: none"> Software Developer Systems Administrator 	TIER 1

THE ISP GALLERY

Beneficiaries of the program at the University of Delaware take a stroll on campus.

A section of students attending a past ISP luncheon listen attentively to the proceedings.

Some ISP staff at Muthaiga sq office, Nairobi going through a meeting of the daily operations of the program.

One of our students, Ken Muraguri, receiving scholarship worth Kshs. 700,000 from Mpower Financing.

Students of the program share a hearty moment with their professors and ISP Director Bob Mwiti (right).

Bob together with Elosy and Wilfred take a picture pose during Elosy's graduation.

Beneficiaries of the program wave goodbyes to their families at JKIA Nairobi on their way to USA.

ISP director, Bob presents car keys to Wilfred who received this BMW as part of his employment benefits as manager for program

WHAT OUR BENEFICIARIES HAVE TO SAY

Kelvin Ongaga

Illinois State University (ISU)

"The Program gives the sons and daughters of the hoi polloi a chance in life. Being part of the program has impacted me positively. I cannot wait to see how the coming years pan out."

Wilfred Mwit

The University of Alabama in Huntsville (UAH)

"I am honored to be one of the first beneficiaries of the Program. I sincerely thank the program for assisting me throughout my journey and for offering me a job after graduation. I cannot thank you enough. I want to give my best in my role as the program manager to make sure that those coming through the program succeed like I did."

Jackson Omushien

Illinois State University (ISU)

"I had been struggling to find admission and moving abroad for close to four years but upon joining the Program, it took less than 6 months after my second GMAT exam. I completed my undergrad in 2015 and now I have managed to get a scholarship towards my graduate studies in Applied Economics (A STEM Program with an amalgamation of IT courses). It was a swift process which made me get accepted to all the schools I applied. Furthermore, there is visa coaching that tremendously increases one's probability of getting a visa (more than 85% visa approval rating). Thanks to the team for the assist even after landing in America

Elosy Kithinji

Illinois State University (ISU)

"Being part of the Program has been the most rewarding experience ever! They've held my hand since the first day I moved to the US till now (1 year later). They've continuously supported, advised, guided and walked with me in the pursuit of my American dream, without which I wouldn't be where I am today."

Janet Mwangi

Grand Valley State University

"The process is smooth and straightforward, but you need to do your part too as a student. Bob goes out of his way to ensure you get what you signed up for - and more. I would recommend the Program for their professionalism and excellent services! It is a hidden gem; I hope more people realize this and take advantage of the opportunity to advance their careers in IT and ultimately improve their lives."

Alex Gichuki

Grand Valley State University

"Not only do they help you with your school application process but also prepare you for the visa interview to increase your chances of approval. I am forever grateful for the overwhelming support that I received through the Program. I would highly recommend The International Scholars Program anytime, all the time, to international students like me who wish to study IT related programs in the USA."
